1. Premium Calculation

Please calculate rates using the Information below:

Rates: **Insured Only** = \$0.018 per \$1,000 of Coverage
 Insured and Family = \$0.026 per \$1,000 of Coverage
 Spouse Only = \$0.026 per \$1,000 of Coverage
 Child Only = \$0.026 per \$1,000 of Coverage

Here's how to calculate your quarterly costs:

1. Select the total amount of coverage you want (example - \$50,000)
2. Divide by 1,000 ($\$50,000 / 1,000 = 50$)
3. $50 \times 0.018 = \$0.90$ (monthly premium amount)
4. To calculate a quarterly premium amount, multiply your result by 3.
5. $\$0.90 \times 3 = \2.70 (quarterly premium amount)
6. $\$2.70 + \3.50 (quarterly billing charge) = $\$6.20$ (your total quarterly cost)

Coverage at termination limited by the maximum coverage that can be continued.

Premium rates for continuing coverage will typically stay the same as for active employees; however are subject to future increases.
